REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of Okamoto et al (US 6854448) does not teach the control valve having a fully closed position wherein the control valve "fully closes" the second passage, as claimed in claim 1. "fully closes" is interpreted as meaning that no intake airflow will flow into the second passage from the upstream end of the intake. Okamoto also does not teach recirculating air from the downstream end of the first passage back to the upstream end of the first passage via the second passage, as claimed in claim 18. Note that newly cited Japanese reference (JP 6264816) teaches at Fig. 5 an intake arrangement having a similar structure to applicant's but does not "fully close" the second passage, nor does it appear to teach recirculation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick R. Solis whose telephone number is (703) 308-2651. The examiner can normally be reached on Monday-Thursday.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0861.
